Audi Intelligent Technologies.

The next step towards realising our vision of piloted driving. Take your seat in a place of relaxation. In an office. In a digital world full of experiences. Where integrated laser scanners provide a new perspective. And where optional, advanced assist systems help the driver and enhance driving safety. More comfort. More fascination. The world will never be the same again.

The figures for fuel consumption and CO₂ emissions can be found on page 60.

Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

Reassuring

- adaptive cruise assist
- Precision sensing of surroundings using cameras, radar sensors, ultrasonic sensors and laser scanners
- Automatic braking, pulling away, distance control and lane compliance
- + More relaxed driving in traffic

No more grey hairs. Traffic congestion cannot always be avoided. But stress certainly can be. In the Audi A8. With the optional adaptive cruise assist featuring speed limiter, efficiency assist, swerve assist and turn assist – even when driving in narrow lanes. At motorway roadworks with restricted lane widths, for example, bottleneck assist helps you keep your distance from the vehicle ahead. The system also regulates your speed, helping vehicles in adjacent lanes to drive in staggered formation.

not
unsettling.

The figures for fuel consumption and CO₂ emissions can be found on page 60. Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment. Please note: The systems work only within system limits and assist the driver. However, the driver remains responsible for driving the vehicle and is required to be attentive at all times.

Saying

not

doing.

Everyday language interaction.

Recognises the way you talk

No predefined words and phrases required

It's your voice that counts

You set the tone. Because you are being heard. In your natural voice and in your own words.

The Audi A8 can be equipped with a voice assistant for performing certain vehicle functions and for easier operation of systems such as the MMI. So you stay well informed and entertained. It's that simple.

The figures for fuel consumption and CO₂ emissions can be found on page 60.

Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

Conducting

not
operating.

-  The MMI touch response
-  Focuses on the essentials
-  Intuitive control with tactile feedback
-  Operating convenience, just how you like it

Buttons are for coats. And belong to the past. As standard, the MMI touch response comes with 10.1- and 8.6-inch high-resolution HD touchscreens for displaying and controlling infotainment and convenience functions. No buttons, fewer keys, and a richer experience. Feel the difference thanks to tactile feedback. And with custom configuration options for the user interface. Just like on your smartphone.

Technical data.

Model	A8 50 TDI quattro (210 kW)	
Engine type	V6 diesel engine with common rail injection system and turbocharging, Mild Hybrid Electric Vehicle (MHEV)	
Displacement in cc (valves per cylinder)	2,967 (4)	
Max. output ¹ in kW at rpm	210/3,500–4,000	
Max. torque in Nm at rpm	600/2,250–3,250	
Power transmission		
Drive type	quattro permanent all-wheel drive	
Transmission type	8-speed tiptronic	
Weights/capacities	A8	A8 L
Unladen weight ² in kg	2,050	2,075
Gross vehicle weight in kg	2,690	2,700
Permissible roof load limit/nose weight in kg	100/95	100/95
Trailer load limit ³ in kg		
unbraked	750	750
12 % gradient	2,300	2,300
8 % gradient	2,300	2,300
Fuel tank capacity, approx. in l	72/AdBlue ^{®4} tank: 24	72/AdBlue ^{®4} tank: 24
Performance/consumption		
Top speed in km/h	250 ⁵	250 ⁵
Acceleration 0–100 km/h in s	5.9	5.9
Fuel grade	Sulphur-free diesel ⁶	
Fuel consumption ⁷ in l/100 km		
urban	6.7–6.4	6.7–6.4
extra-urban	5.5–5.2	5.5–5.2
combined	5.9–5.6	5.9–5.6
CO ₂ emissions ⁷ in g/km		
combined	157–148	156–148
Emission standard	EU6	EU6

Explanatory notes

¹ The figure given was calculated using the specified measuring procedure (current version of UN-R 85).

² Unladen vehicle weight includes driver (75 kg) and fuel tank 90 % full, calculated in accordance with the current version of Reg. (EU) 1230/2012. Optional equipment may increase the car’s unladen weight and drag coefficient, whereupon the possible payload limit and the top speed will be reduced accordingly.

³ The engine’s power output always decreases with increasing altitude. At 1,000 m above sea level, and for every additional 1,000 m, deduct 10 % from the weight of the outfit (trailer load limit + gross weight of the towing vehicle). Figure for trailer load limit applies to factory-fitted trailer towing hitch. If using the vehicle with a trailer towing hitch for commercial purposes, a digital tachograph may be required under certain conditions.

⁴ The separate AdBlue tank is refilled as indicated by the information in the display of the instrument cluster. We recommend having the AdBlue tank refilled by your Audi partner. AdBlue is a registered trademark of the Verband der Automobilindustrie e. V. (VDA).

⁵ Regulated.

⁶ We recommend using sulphur-free diesel complying with DIN EN 590. If this is not available, use diesel complying with DIN EN 590.

⁷ The specified fuel consumption and emission data have been determined according to the measurement procedures prescribed by law. Since 1 September 2017, certain new vehicles are already being type-approved according to the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test procedure for measuring fuel consumption and CO₂ emissions. Starting on 1 September 2018, the New European Driving Cycle (NEDC) will be replaced by the WLTP in stages. Owing to the more realistic test conditions, the fuel consumption and CO₂ emissions measured according to the WLTP will, in many cases, be higher than those measured according to the NEDC. For further information on the differences between the WLTP and NEDC, please visit our website. We are currently still required by law to state the NEDC figures. In the case of new vehicles which have been type-approved according to the WLTP, the NEDC figures are derived from the WLTP data. It is possible to specify the WLTP figures voluntarily in addition until such time as this is required by law. In cases where the NEDC figures are specified as value ranges, these do not refer to a particular individual vehicle and do not constitute part of the sales offering. They are intended exclusively as a means of comparison between different vehicle types. Additional equipment and accessories (e.g. add-on parts, different tyre formats, etc.) may change the relevant vehicle parameters, such as weight, rolling resistance and aerodynamics, and, in conjunction with weather and traffic conditions and individual driving style, may affect fuel consumption, electrical power consumption, CO₂ emissions and the performance figures for the vehicle.

Legal notice about Audi Genuine Accessories

Audi Genuine Accessories are available from AUDI AG for an extra charge. Accessories are not factored in when calculating the vehicle’s fuel consumption and emission figures. As such, accessories can be fitted only after initial registration.

Classifications of tyre parameters

The table shows the range of fuel efficiency, wet grip and exterior noise emission classes for the different tyre sizes of the Audi A8 and Audi A8 L.

	Tyre size	Fuel efficiency class	Wet grip class	Exterior noise emission class	
Summer tyres	235/60 R 17	B	B	72	
	235/55 R 18	B	A	69	
	255/45 R 19	B	A	69–68	
	265/40 R 20	C	B	70	
Winter tyres	275/35 R 21	C	B	71	
	235/55 R 18	E	B	70	
	235/50 R 19	C	B	68	
	265/40 R 20	E–C	B–A	72–70	

It is not possible to order a specific tyre.

Ask your Audi partner about the range of tyres available in your country.

Important note

Special information about the wheels: Wheels with gloss turned or gloss milled finish as well as polished or partly polished aluminium wheels must not be used in wintry road conditions. For manufacturing reasons, the rim surface does not have sufficient corrosion protection for such use and can be damaged permanently by road salt or similar.

Legal information about the Audi tablet

The functions of the Audi tablet may vary by region. Mobile phone charges may apply. The vehicle data that can be displayed depends on the given vehicle and equipment. The navigation function requires an Audi connect Wi-Fi hotspot¹ and internet access, in some countries exclusively follow mode with display of current vehicle position. The Google Play Store™² function requires internet access.

Equipment for the Audi A8 illustrated (p. 12–24)

Paint finish: Vesuvius grey, metallic

Wheels: Audi Sport cast aluminium wheels in 5-arm turbine design in magnesium look, gloss turned finish^{3,4}

Seats/seat upholstery: comfort customised contour seats, front in perforated Valcona leather, sard brown

Inlays: upper inlays in eucalyptus, natural grey brown; lower inlays in fine paint finish, graphite grey

Dimensions are for unladen vehicle weight. Luggage compartment volume¹: 505 l; turning circle approx. 12.9 m.
*Maximum headroom. **Elbow room width. ***Shoulder room width.

Legal notice about Audi connect navigation & infotainment with customer SIM card

Use of the services supported by Audi connect is possible only with an optional navigation system and Audi connect (including car phone – depending on the vehicle model). Depending on the vehicle model, you will also require a SIM card with data option and with LTE option to use LTE² – with car phone, a SIM card with telephone and data option or a Bluetooth-capable smartphone with remote SIM Access Profile (rSAP)³. The services are available only in conjunction with an existing or separate mobile phone contract and only within the range of the respective mobile phone network. Depending on the terms of your mobile phone contract, additional costs may be incurred when receiving data packets from the internet – particularly when used abroad. Due to the high data volumes involved, a data flat rate is strongly recommended.

The availability of the services supported by Audi connect navigation & infotainment varies from country to country. The services are generally provided for at least 1 year from vehicle delivery. If Audi connect services are based on services from third-party providers, permanent availability cannot be guaranteed as this is the responsibility of the third-party provider. Following a period of 24 months from vehicle delivery, the Audi connect services will be extended once free of charge for 12 months. If you do not require this extension, please write to:

AUDI AG
Audi International Customer Care Services
85045 Ingolstadt, Germany
Email: kundenbetreuung@audi.de
Tel.: +49 800 28347378423

Ask your Audi partner about a subsequent extension of the Audi connect services. Depending on the vehicle model, Audi connect enables access to Google and Twitter services. Permanent availability cannot be guaranteed as this is the responsibility of Google and Twitter. Please visit www.audi.com/connect or contact your Audi partner for more detailed information about Audi connect; contact your mobile services provider for information about contract conditions.

Legal notice about Audi connect navigation & infotainment via a SIM card permanently installed in the vehicle

Use of the services supported by Audi connect is possible only in conjunction with an optional navigation system. Audi connect services are provided through AUDI AG / importers. The data connection for Audi connect services is set up through a mobile services provider via a SIM card installed in the vehicle. The costs for these data connections are included in the price of the Audi connect services. The data connection for the Wi-Fi hotspot, the use of online radio, hybrid radio and music title recognition services as well as online media streaming and further services provided through an Audi smartphone app are not included. The data connection for the Wi-Fi hotspot, use of online radio, hybrid radio and music title recognition services as well as online media streaming and other services offered via an Audi smartphone app is also established through the SIM card permanently installed in the vehicle and a payable data tariff from the Audi provider. You will find information about tariffs and booking at www.audi.com/myaudi.

Alternatively, an external customer SIM card can be inserted into the card slot to establish a data connection. In conjunction with the optional Audi phone box, a Bluetooth-capable smartphone with remote SIM Access Profile (rSAP)³ can also be connected to use the integrated car phone function. If an external SIM card is inserted into the card slot or connected via rSAP, all data connections, for both the Audi connect services as well as for the Wi-Fi hotspot, will be established via this external SIM card. In such cases, settlement of the costs incurred is in conjunction with those accrued via the external SIM card.

The availability of the services supported by Audi connect navigation & infotainment varies from country to country. The services are generally provided for at least 1 year from vehicle delivery. If Audi connect services are based on services from third-party providers, permanent availability cannot be guaranteed as this is the responsibility of the third-party provider. Following a period of 24 months from vehicle delivery, the Audi connect services will be extended once free of charge for 12 months. If you do not require this extension, please write to:

The figures for fuel consumption and CO₂ emissions can be found on page 60.

Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

¹Technical specifications refer to a basic vehicle without country-specific features and the selected optional equipment. ²Requires LTE card contract for full use. For information about the availability and use of LTE support, please contact your Audi partner. ³Please contact your Audi partner or visit www.audi.com/bluetooth for information on compatible mobile phones.

Ask your Audi partner about a subsequent extension of the Audi connect services. Depending on the vehicle model, Audi connect enables access to Google and Twitter services. Permanent availability cannot be guaranteed as this is the responsibility of Google and Twitter. Please visit www.audi.com/connect or contact your Audi partner for more detailed information about Audi connect; contact your mobile services provider for information about contract conditions.

Legal notice about Audi connect emergency call & service including vehicle scheduling and Audi connect stolen vehicle tracking system

The services are provided via a SIM card installed in the vehicle. The costs for calls and data connections are included in the price of services. The services provided by Audi are available only within the coverage of the mobile phone network of the mobile phone provider chosen by Audi. The Audi connect services emergency call, online roadside assist, Audi incident assistance and Audi service request are available for 10 years from vehicle delivery in the following countries: Austria, Belgium, Bulgaria, Finland, France, Germany, Gibraltar, Greece, Hungary, Ireland, Italy, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, the Netherlands, Norway, Poland, Portugal, Romania, Spain, Sweden, Switzerland, the UK.

Ask your Audi partner about when the services will become available in additional European countries and about the availability of the optional equipment.

The Audi connect remote services can be used free of charge for 3 years from vehicle delivery and can then be extended at an extra charge. The Audi connect stolen vehicle tracking system is available for 1 year from delivery of vehicle and activation and can then be extended at an extra charge.

Further information

Disruption to the services may occur due to force majeure and official orders as well as technical or other measures carried out on the systems of AUDI AG, suppliers or network operators to ensure their proper function (e.g. maintenance, repairs, system-related software updates, extensions). AUDI AG will make every reasonable effort to end such disruption as quickly as possible or to work towards a resolution.
